

As part of our commitment to making a difference with every move, your health, safety and peace of mind will always be our utmost priority. As we recognize that we all have a role to play in reducing the spread of COVID-19, Ti-Yende Movers & Transportation is taking extra precautions to ensure a safe and successful move. This includes the following:

- All team members undergo screening each day to ensure a healthy work environment;
- Increasing the frequency of cleaning and sanitizing of all equipment used during your move;
- Increasing the availability and accessibility of hand sanitizer for all team members;
- All team members are required to wear gloves during a move.

Ti-Yende Movers & Transportation's message is consistent with the Province of Manitoba's Prepare and Prevent recommendations, so here's what you can do in preparation for your move:

- If you are not feeling well, please postpone your move to a later date when you are ready and able to do so;
- Do not book a move during the 14-day self-isolation period;
- Wash your hands and use an alcohol-based hand cleanser regularly.

At Ti-Yende Movers & Transportation we understand that moving can be a very stressful time but we are here to support you. Whether you are planning to move now or in the future, you can expect to receive the same excellent service and attention to detail that we've provided over the years.
